EDUCATION

Indian Institute of Technology Patna

Bachelor of Science in Computer Science, CGPA: 8.9

Bihar, India

Dec. 2024 – Present

SVGMS

Senior Secondary (Class XII), PCM

Rajasthan, India

2024

EXPERIENCE

Chief Technology Officer (CTO)

Showa

July. 2025 – Jun. 2026

Bihar, India

- Led development of three full stack SaaS applications using Next.js, Express.js, MongoDB, SQLite, and Tailwind CSS.
- Managed product planning, feature prioritization, client communication, and the complete software development lifecycle.
- Designed scalable backend architecture, authentication systems, deployment workflows, and production releases.

Freelance Developer

Quick Venue

Jun. 2026 – Aug. 2026

Remote

- Developed backend APIs for an AI powered venue booking platform using Express.js and MongoDB.
- Designed scalable schemas for venues, cafes, vendors, bookings, quotations, payments, and RBAC.
- Built secure authentication, admin APIs, booking workflow, quotation management, and business logic for multiple user roles.

Member, Student Technical Council (STC)

Indian Institute of Technology Patna

Sep. 2025 – Present

Bihar, India

- Developed the frontend and complete backend of the STC IITP Hybrid website.
- Developed and maintained the Xenith technical fest website throughout the event.
- Contributed to the development of the Phoenix technical fest website.
- Shared valuable content related Web Development and DevOps in official channels.

PROJECTS

AdJmd | Next.js, Express.js, MongoDB, Tailwind CSS, ImageKit

Jun. 2025 – Jul. 2025

- Developed a full stack advertisement management platform for managing media inventory, clients, and business operations.
- Built secure authentication, role based access control, image uploads, and media management features.
- Designed scalable REST APIs and optimized MongoDB schemas for efficient data management.
- Delivered the project for production use within a one month development cycle.

Showa Track | Next.js, MongoDB, NextAuth, Nodemailer, Tailwind CSS

Oct. 2025 – Feb. 2026

- Built a CRM platform for Out of Home advertising agencies to manage media inventory, bookings, agreements, and proposals.
- Reduced manual work by automating proposal generation, media booking, and operational workflows.
- Implemented booking conflict detection to prevent duplicate media bookings.
- Integrated authentication, scheduled jobs, email notifications, and reporting features.

Showa Store Management | Next.js, Express.js, SQLite, Electron, Tailwind CSS

Feb. 2026 – Apr. 2026

- Developed an offline first store management system using Next.js, Express.js, SQLite, and Electron.
- Implemented POS billing, inventory management, supplier and customer management, debt tracking, and barcode support.
- Built secure role based authentication with multi user support and LAN connectivity for multiple devices.
- Packaged the application as a desktop application using Electron.
